Address✉: 59 Marlborough Road, Bedford, MK40 4LE

Driving Licence: Full UK since May 2014

### PERSONAL PROFILE

I am an enthusiastic individual who is conscientious and hard working. My inclination to opt for challenging tasks can be seen in my choice for studying Computer Science BSc (Hons). Computer Science has allowed me to understand theoretical and practical aspects of computer hardware, software, operating systems, networking and how the programmatic ways of storing data in computers so that the data can be used efficiently. Furthermore, I have knowledge in many programming languages such as, Programming in C, Haskell, Java, Python, PHP, SQL which is a Database language and XHTML, HTML and CSS which used to create and develop websites.

I am willing to learn at every given opportunity. I have outstanding attendance and punctuality records, which can be seen throughout my time at University and through part-time employment I have undertaken so far.

*Achievements:*

- Working effectively in a team
- Develop skills in leadership and communication.
- Developed good customer relation skills
- Developed excellent standards of service and customer care

**RESPONSIBILITIES**

Raising money for charity has played an important part of my upbringing. This is partly due to the encouragement from my family and my local community. This can be seen, where my local community asked me to raise money for numerous charities, where I raised a significant amount of money.

**SKILLS PROFILE****Team work**

As a student at De Montfort University Leicester the nature of the work was such that one had to often respond at short notice to peers and their needs. As I was a vital member of the team, it was essential that I worked within an effective team to ensure the greatest outcome. The tasks were completed competently.

**Communication**

I have proficient written and verbal communication skills. Furthermore, I am confident and articulate individual who has proficient speaking abilities and can speak in public and give presentations. This can be demonstrated through delivering presentations at university.

**Programming**

I have knowledge in multiple programming languages such as, Programming in C, Haskell, Java, Python, PHP, SQL which is a Database language and XHTML, HTML and CSS which is used to create and develop websites. I am comfortable with using operating systems such as Microsoft Office Suite, Window XP, Unix and Linux.

**ACTIVITIES/INTERESTS**

I am very keen on and enjoy keeping up-to-date on current affairs. I enjoy playing sports like Football and Cricket which has provided me with the opportunity to stay physically fit as well as a time to relax and socialise.
